

To whom it may Concern,

I have had the good fortune to work with and have Tyvon on my team over the last few years in Arizona and Florida. I have been involved with baseball for over 30 years as a youth athlete, Major League Baseball player and a youth coach. Tyvon has an excellent work ethic and a strong desire and motivation to be the best that he can be. He is a team leader on and off the field who always shows up with a great attitude and a positive winning mentality. He knowledge of the game is beyond his years and he is very coachable. Tyvon has the ability to play many positions due to his athletic capabilities and awareness of what is happening on the field. I would, without any doubt, recommend Tyvon as an impact player who will be an asset to any collegiate program.
